Puttenham
Church of England School

Dear parents and carers.

Last week we celebrated science week. Each class presented their learning in our celebration assembly.

Hedgehog Class

Mrs Drury told us that Hedgehog class had been learning about different materials and linked this to their Three Little Pigs house making. The children predicted what would happen to each house when the wolf 'huffed and puffed!' What a fun investigation!

Rabbit Class

Rabbit class informed us of their forest school visit to celebrate 100 days in Rabbit class. The children collected 100 natural objects to make an invention for the future. Mrs Shaw ensured that the children learnt about the plants and trees including naming them and how to ensure they grow well!

Fox class

Fox class told us about John Dunlop a scientist and inventor who had made the first pneumatic tyre. We learnt lots of facts about his life and what he needed to investigate to make the tyres we use today.

Many of the children said that they wanted to be a scientist. I am glad we have inspired them to be scientists. I look forward to seeing what they discover in the future.

This week the children had a perform drama session called 'jungle rumble.' The children used their creativity and imagination to join with retelling a story. They certainly had fun!

Have a lovely weekend,
Miss De Filippis
