

Contingency plan from parental survey 27/4/21

Follow up from last survey:

- 100% - felt the school supported children's well-being/safeguarding with communication, zooms etc
- 92% had the resources needed
- 100% had access to a device (1 had a school device)
- 21/23 balance of phonics, RWM and foundation
- 23/23 – found classdojo/tapestry easy to use
- 100% received regular feedback
- 20/23- attended zoom sessions
- Virtual meeting – very helpful for those that attended
- Must 'do' activities were liked
- Useful having planning the night before

	Action for next time
More topic work – science/history	Moderated and prioritised objectives. Science was covered well but signpost to other activities
Daily links to zoom rather than scroll back	Reminders to be posted with planning or Classdojo or tapestry
Difficult to hear with a large group or class on the zooms	Split into smaller groups – vary so they can see all their class group at some point
More maths e.g. extensions	Extension where needed and signpost to further activities.
